

John Westhaver

Biography

John Westhaver was born in St. Stephen, New Brunswick, a small town located on the east bank of the St. Croix River. He is the second youngest of eight children and remembers his childhood fondly.

John was a well-rounded, responsible student with a close group of friends. In 1994, a month and a half before his high school graduation, John was in a horrific car crash with three other young men. The teens had been enjoying a normal Friday night - drinking beer in the car, blasting music, and speeding. Although the driver of the vehicle was sober, the car lost control at a sharp bend and hit a telephone pole, killing everyone in the car except John.

When he awoke from a medically-induced coma a month later, John learned that his friends had died in the crash. He was fortunate to be alive but had suffered life-threatening burns to 75 per cent of his body. Through his extensive rehabilitation, John found the strength to move forward. His ongoing recovery inspired him to devote his life to helping others make the choices that he hadn't.

When John moved to Victoria, British Columbia in 2000, he joined a burn support group. His physical therapist, inspired by John's natural ability to uplift and inspire others, suggested that he consider public speaking. John joined Toastmasters and conducted his first presentation in 2002. Since 2006, John is a professional member of the Canadian Association of Professional Speakers as is also an ICBC Roadsense Speaker since January 2009.

In 2004, John formed JMM Speaking, a business named after his best friend, Jason Murray McKeeman, who died the night of the crash. JMM Speaking is dedicated to empowering youth to make responsible choices. To date, John has presented on over 200 different occasions and has toured high schools across North America to promote safe driving.

John's long list of clients includes the Firefighters Burn Fund in Victoria, BC, the Insurance Corporation of British Columbia, Crime Stoppers, the Vancouver Island Health Authority, the Connecticut Burn Care Foundation and the Canadian Forces Base Esquimalt.

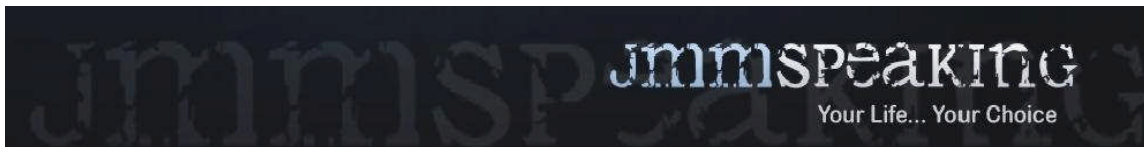

John is a trained volunteer with S.O.A.R. (Survivors Offering Assistance through Recovery) with the Burn Survivor Group in Victoria.

John tailors his presentation to each occasion and tells his story with humour and hope. An inspirational speaker, he inspires audiences to think about the simple choices they make in their everyday lives and to weigh the consequences of those choices. John's discussions can be customized to cover any or all of his specialties including goal setting, overcoming fear, surviving the worst to find your inner peace, moving on after a traumatic event, and taking personal responsibility in a vehicle. If you are in need of a high quality presentation that delivers a powerful message, you need to book John as he will captivate your audience.

Mission Statement

My passion is to use my life experience to help youth deal with challenging choices that can be harmful to themselves and others. I will do this by telling my story and what I went through because of the catastrophic car crash I was in and give them the tools and encouragement they need to make the right choice when faced with difficult choices so that they never experience the trauma and grief myself, my family and friends had to deal with because of this catastrophic car crash.

“Choices”
30 - 60 Minute Keynote

In this 30-60 minute keynote presentation, John addresses driving issues with teens.

John begins the presentation by talking about the choices teens make in every day life and how significant they are. As he leads up to the events of the night of April 29, 1994, John speaks about his childhood and what type young man he was.

John then recalls the gripping details of the fatal car crash and how he woke in the hospital a month later to learn that his friends had died that night. He recounts his challenging but miraculous journey to recovery and how his hardships have contributed to the life he leads today.

Next, John discusses how driving choices affect teenagers. He allows the audience to ask questions about driving, and talks about some of the choices he could have made differently that night.

John plays a short video about car crashes.

He allows the teens to ask him questions about his life and what he's overcome. John closes the presentation with the resonating phrase, "Your life. Your choice."

After John's keynote, 10th grade student said, "This was the best session! He told us his story purely to educate us, and he did a wonderful job. He seems like such a strong person."

To know more about how John's keynote presentation affects teens, read testimonials from students here.

Testimonials

Dear John Westhaver,

I'm a student from Stratford high school and i want to thank you for coming to our school and sharing you're story to us students; I learned that a fun night out with a few friends can turn out tragic if we don't think twice about our actions, drinking and driving should not occur anytime anyplace and what you are doing is changing the world around little by little and started out by telling teens our age not to make the wrong mistakes and take caution on who we get in the car with and condition their in while driving a vehicle, I just want to say you changed my mind set on drunk driving, after night of partying we should always have one person who is sober and aware of their actions no the road, not letting one night turn into a lifetime of pain on friends family. You are a brave human and we are thankful for your helpful speech god bless you and your family take care.

J Franklin, Student

"I just wanted to let you know that our students enjoyed the presentation on May 16, 2007 by John Westhaver. The students I spoke with felt his message was delivered in a way that was not a "lecture". Another comment made by the students was that they have now been really thinking more about making choices when they get into a car. Enclsoed is a donation in appreciation of Mr. Westhaver spending the time with us and delivering such an important message."

Sheila Levine, Teacher

Hey John, this is Craig R from Stratford high school and i would really like to thank you for coming to speak at our school. You speaking has really changed the way i think. It made me realized how one night out can really change your whole life. So thanks and stay well.

Craig R., Student

Dear John,

I really appreciate you taking the time out of your life and coming to talk to your 12th grade health class. I learned a lot from your 45 min presentation. The things that I have learned are to never get into a car with someone who has been drinking or even going to be speeding. When I seen what happen to your life and the struggles you had to go threw it has made me think more about getting into my friends cars. When I left the class room I had told my friends about your life story. Some of my friends that had seen your presentation that day had felt the same way I felt when I walked out of the classroom. I just want to say ill always think of what had happed to you that night you got into that car with your friends. Your information that you have shared with me and my classmates will change my mind about getting in the car with my friend after a long night of partying or even stand up and say something when my friends are stretching the speed limit. I would like to say thanks for taking your time out of your life and sharing your information to my health class. I recommend you come back next year and talk to the students at your school.

M Martonak, Student

**Mr. John Westhaver,
thank you for coming, your speech had a high influence in the way i drive. because of your experience and the time you took to share it with us, i have made sure that every time i get into the car, my seatbelt is on. its more important to save your own life than to look cool driving with the music blaring in your ear, making it hard for you to even think. becuase of you this is my constant reminder. thank you once again for your time and hope to hear and share your story again. thank you**

A Trapanese, Student

**Dear John,
I want to take the time to thank you for taking time of your personal life to share your story with us. i must say, as a new driver i am as you said, i test the limits of my car, not really because of curiosity but, as stupid as it sounds, to show off. my boyfriend lost both his parents when he was young, one in an accident in which he witnessed the death of his mother. he is my reminder every day as he gets in the car and holds my hand. he reminds me everyday to slow down and be safe for he does not want to lose the person he loves the most again. i never really thought of the full consequences of an accident to me it was either you live or you die nothing else. thank you for the warning it has been highly helpful. Thank you again**

O Adaes, Student

Hi, my name is Keene i am from Stratford high school and i am a senior.. i m the young man that came up to you after class and said thank you for taken you time to tell us your story.. i a m grateful that you came by and shared your story with us.. i got me thinking a lot and maybe me realize that things can just go bad at anytime and i think differently and strongly about getting into someones car where they have been drinking.. well i am sorry for your lost and am proud that you kept yourself together and didn't give up.. thank you so much John Westhaver for making time to come see us and tell us your story.. i hope all is well for you.

Keene, Student

**hi john
this is Clarissa R from Stratford High School you came to see our health class ..I just wanted ot thank you for coming and specking to our class and sharing your story with us ...your story touched me and let me know that any thing can happen in just a matter of time.. well i just wantot thank you for your time and wish you the very best**

Clarissa R, Student

**Dear Mr. Westhaver,
I just wanted to thank you for an incredible presentation last week at Stratford High school. I hope that your presentation helps teens to do the right thing.**

Steven F, Student

"Fabulous. So nice to see the reaction of the audience...teenagers sitting and listening and really getting it! ...everyone who is driving age, or close to it...most adults make the wrong choices when driving...they need to see this!"

Ruth Ann Swansburg, Parent

"This was an outstanding presentation. John was honest, enthusiastic and very dynamic. He was determined to convey his message. Our students were so impressed with his knowledge, passion and his courage. Without question, we would have John speak again"

**Don Walker, Guidance Councilor
St Stephen High School**

"Your speech was the best speech i have ever seen or heard. If you never got your point across to those students, nobody will."

Jeremy Coburn, Student

"I thought the presentation was awesome. My daughter being a new driver really enjoyed it also. We had a great talk after around our kitchen table. I would encourage anyone who has never seen it to go and hear it, and make sure to bring their KIDS along to hear it."

Anonymous, Parent

"I though it was a very interesting speech. It gave me a lot more to think about, and hopefully other kids to. It was awesome! It is a lot more to hear it from someone who has actually experienced something this tragic."

Jessie, Student

"Excellent presentation. As a teacher it is nice to know that there are people out there that will talk personally to kids about what can happen. They need to know the risks, and do believe, as you said, that it could never happen to them. It is a strong message and I hope we have you back every year to keep the message coming. "

**Karen Palmer, Teacher
Hartland High School**

"I thought the presentation was very uplifting and powerful. I was defiantly motivated by the presentation and learned and gained a lot educationally from the presentation. Your story had an effect on me because I know people who does speed and drive drunk so that allowed me to take what I learned from you and sharing it with others."

Joy Osahon, Student

Client Feedback

"It was a very moving presentation. The students were extremely attentive. You could hear a pin drop. A real life example of what can happen when good decisions are not made. John, you certainly made an impression."

**Danny Berry, Principal
Strait Area Education Recreation Center**

"I was very impressed with the presentation. The sincerity and directness was very effective with a teenage audience. I would recommend to any High School that they see and hear your presentation... the message is important for young people who feel they are invincible."

**Tim Stuart, Principal
Sir James Dunn Academy**

"His natural, easy-going way of speaking pulls his audience in and allows him to personalize his presentation. Through his story, John easily makes everyone see the reality of how in a split second your life can change forever. I encourage John to continue sharing his story, because he certainly leaves a powerful impression on his audience."

**Lana Rahn, CaPP Dept. Head
Oak Bay High School**

"John's ability to bring his life experience into a classroom is out of the ordinary. He has a remarkable ability to communicate his experiences in a way that is both emotional and uplifting. The participants present during his presentations walk away showing both laughter and tears. I recommend that all individuals between 15-35 yr. of age listen to John's story and learn from his experience. John's courage and ability to captivate the audience is without doubt, impressive! Participants have told me they have changed their risk taking behaviors because of John's sincere and bold discussion. Every community should have a person with courage like John Westhaver. Thank you John for taking your message to the community."

**Wayne Senner RN, BTsN, ENC(C)
Regional Emergency/Trauma Nurse Educator
Nanaimo Regional General Hospital**

“John’s courageous presentation is very engaging and poignant. He has managed to capture the youth audience with your easy and straight forward approach. By sharing his story, the audience clearly learns from his experiences. John’s presentation allows the audience to contemplate the consequences of poor choices and how to make good choices to get home safe.”

**Deborah Exelby BSc., EMA 3 - ALS 2 (ACP)
Trauma Coordinator
Vancouver Island Health Authority**

“This was an outstanding presentation. John was honest, enthusiastic and very dynamic. He was determined to convey his message. Our students were so impressed with his knowledge, passion and his courage. Without question, we would have John speak again”

**Don Walker, Guidance Councilor
St Stephen High School**

"John was a great presenter that motivated our residents and brought smiles to their faces. His presentation on Choices was both uplifting as well as informative. We look forward to working with John more in the future and wish him best in all of his endeavors."

**Joseph McGibbon, Residence Area Coordinator
University of Victoria**

FireFighters Burn Fund Victoria, BC

The Firefighters Burn fund Victoria, BC is a non-profit volunteer society dedicated to the treatment, support, prevention and education related to burn and fire injuries. All donations are used exclusively to support the aims and projects of the Burn Fund, including the maintenance and upkeep of The Burn House.

The Fire Fighters Burn Fund was founded in 1978 by two fire fighters from the Victoria and Oak Bay fire departments. Now called the Fire Fighters Burn Fund Victoria, BC it is supported by firefighters from Victoria, Oak Bay, and the Department of National Defense.

The fund supports the prevention and treatment of burn injuries. This includes the purchase of medical equipment for the Burn Unit at Royal Jubilee Hospital, patient and family support (including the Burn House) and fire and burn prevention programs in the community.
